Team: Enrich Placement Testing Procedures

Bergen Community College
Action Team Kick-Off Event
ATD Implementation
Team Time #3

Action Planning and Next Steps

At this point your team has identified and discussed a) team members; and b) the strengths and challenges in building momentum, a sense of urgency, and designing a process. Next is an opportunity for the team to reflect on its learning, think through options for the next steps to implementation, and establish new or refined priorities for the work on the campus. The team should discuss next steps: whom to involve, how to align this work with other student success work, how to communicate findings, and how, when, and by whom follow-up steps will be taken.
