Summary
The Center for Institutional Effectiveness provides the following description of the Bergen Community College Fact Books:

"The Bergen Community College Fact Book presents data relating to enrollment, graduates, faculty and other personnel, college finances and demographics. The Fact Book has several purposes: to provide data which may assist the administration in planning and decision making; to give the college community an overview of the student, personnel and financial profiles of the college; and to serve as a reference document that answers many of the most often asked questions about the college." ¹

The Fact Book has been published online since the 2008-2009 edition, which was also published in print. Print publication ceased after that year. Fact books from 2008-2009 onward can be accessed here, on the Center for Institutional Effectiveness' webpage under Institutional Research.
