INFORMATION RESOURCES FOR RESPIRATORY CARE

Prof. Joan Dalrymple
Reference Librarian
Fall 2019
BEFORE YOU BEGIN YOUR RESEARCH...

- Determine the keywords and related terms. Use a medical dictionary.
  - Try [Webster's Medical Dictionary](#) online, Stedman's in STAT!Ref, or one of the library's dictionaries in print.

- Are you seeking professional or consumer information?

- Do you need basic background information on a topic? — Use general medical books and trusted resources on the web.

- Use JOURNALS for “peer-reviewed” articles.

- Always pay attention to the date of publication for the most up-to-date information.
FINDING BASIC MEDICAL INFORMATION

“BACKGROUND INFORMATION”

Library Catalog

Access from Library Home Page

http://www.bergen.edu/library

Includes print books, media, electronic books and e-media and periodical articles

Find good general medical references such as:

Merck Manual of Diagnosis and Therapy

Stat!Ref – Small collection of up-to-date medical resources.

Trusted Website

MedlinePlus http://www.medlineplus.gov
USE JOURNALS – FOR RESEARCH AND PROFESSIONAL ARTICLES

Journals

- Journal articles contain the most up-to-date information.
- Include Research and Scholarly Articles.
- Peer Reviewed / Refereed.
- Often published by scholarly or professional organizations.
- Most are not free on the internet.

How can I find out if BCC subscribes to a journal?

- Use the “Journals A-Z” list. (Located under the main library search box.)
PARTS OF A RESEARCH ARTICLE

Article Title – Succinct description stating purpose of article and using important keywords that can be retrieved by various search engines.

Author information – Author(s) names and institutional affiliations. Contact information.

Abstract – Summary of the scientific process used including introduction, methods, results and conclusion.

Introduction – Background information. Previous research. Research gap that is being addressed. Purpose of the research.

Methods – How the study, experiment or observation was conducted. Participants chosen, methods, materials, procedures. How data was analyzed. Methods are described in detail so that study can be replicated.

Results – Reports data gathered, analysis of data. Includes tables and graphs.

Discussion/Conclusions – Clearly states primary findings. States explanations and conclusions that can be drawn. Assesses limitations Suggestions for further research.

References/Bibliography – Prior research that was consulted.
## USE DATABASES TO FIND ARTICLES.

<table>
<thead>
<tr>
<th>Database</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Academic Search Premier</td>
<td>General Database containing good peer reviewed medical and health journals.</td>
</tr>
<tr>
<td>CINAHL</td>
<td>The Cumulative Index to Nursing and Allied Health Literature (CINAHL) indexes over 1,800 journals, mostly in English.</td>
</tr>
<tr>
<td>PubMed (Medline)</td>
<td>Major index to medical &amp; allied health literature. Free on Internet: <a href="http://www.pubmed.gov">www.pubmed.gov</a></td>
</tr>
<tr>
<td></td>
<td><strong>New for 2020!</strong></td>
</tr>
<tr>
<td>Science Direct</td>
<td>Index and full-text database. Covers 24 fields of science, medicine, technology and social sciences including psychology.</td>
</tr>
</tbody>
</table>
GOOGLE SCHOLAR SEARCHES MOST OF BCC’S DATABASES

- [http://scholar.google.com](http://scholar.google.com)
- Use Advanced Search
- Look for PDF, HTML or “Full Text @ Bergen CC” in on right side of screen
SETTING UP LIBRARY LINKS IN GOOGLE SCHOLAR

Set up your computer to link to BCC holdings
Sign into your Google account.

URL = [http://scholar.google.com](http://scholar.google.com)
Click on “Settings” (usually a gear icon)
Click on “Library Links”
Search for “Bergen Community College”
Check-off all the “Bergen” boxes that appear:

- [ ] Bergen Community College - Full-Text @ Bergen CC
- [ ] BERGEN COMMUNITY COLLEGE - ProQuest Full text
- [ ] Open WorldCat - Library Search
- [ ] Bergen Comm College – Full-Text @ Bergen CC

◆ Click “SAVE”
OBTAINING FULL TEXT ARTICLES

PDF’s or html from Databases or Google Scholar

Journals A-Z List – Lists all journals to which we have access.
Use Google Scholar – Links to BCC Library Holdings and “open access” articles.
Interlibrary Loan – copies from other libraries
